Vaishnavi Dwivedi

SENIOR SOFTWARE ENGINEER

6+ years of Backend development experience in developing & delivering software solutions with quality services for various domains like B2B, P2P and TTH. Looking for a role which encourages continuous learning and provides exposure to new ideas. Eager to join an organization to bring in top-class Java and PL/SQL development, along with problem solving skills.

EXPERIENCE

SENIOR SOFTWARE DEVELOPER COFORGE LTD.

Jun 2022 - Present

-> Emirates ResConnect | Dec 2024-Present

Worked on API development using **Java 17, Spring Boot, REST APIs, JPQL, Postman, Reactive Programming, Microservices** and **Splunk**.

- Collaborate with cross functional teams to **gather requirements**, develop and implement high-quality, scalable, and secure software solutions using **Java, Spring Boot, Microservices, REST APIs**.
- Perform code reviews, **ensured unit testing (branch and instructions) coverage of 80-95%**.
- Demonstrated expertise in translating client specific needs into easy-to-understand technical solutions.
- Implemented **Spring WebFlux reactive** programming to improve system performance and scalability.
- Executed **Continuous Integration** workflows by integrating Spinnaker with Red Hat OpenShift for streamlined build and deployment automation.
- Utilized **Jenkins** to streamline **Continuous Integration** by automating code compilation, testing, and Continuous Deployment by streamlining deployment .
- Leveraged **GitHub Copilot** and **GitLab Duo** to enhance code quality and automate repetitive, time-consuming tasks, improving development efficiency.

->Toyota TDEM | August 2023- December 2024

Worked for creation of batches and APIs using **Spring Boot** with **Java 11** and **Oracle PLSQL** for a migration project. Scheduled batches using IBM Tivoli Workload Scheduler.

- Developed batches for processing of export and import invoices, generating reports.
- APIs to call the batches and reports from screen using JPQL.

- **Microservices Foundations** - LinkedIn Learning
- **Spring with Spring Boot** - LinkedIn
- **Web Application Development** Using Servlets and JSP – NIIT
- **Oracle SQL Cert** - Udemy

- Collaborated with Business Analyst to understand requirement and reviewed UISS documents for the project to be migrated from C to Java 11.
- Coordinated with the team to establish development structure and implement efficient database usage strategies.
- Performed bug analysis and delivered enhancements to lower defect leakage and boost system reliability.

-> **Emirates CALOGI | June 2022- July 2023**

Worked on API development using **Java 8, Spring Boot, JPQL, Postman** and **Splunk**.

- Worked directly with clients to understand their needs and provide effective solution.
- Created APIs for credit and delivery notes processing.
- Identified Production Defects through efficient **debugging**, reducing the number of customer issues.

TECHNICAL SECURITY ANALYST ACCENTURE

Nov 2021 - Jun 2022

-> **Santander UK | January 2022- June 2022**

Worked on security product 'SailPoint Identity IQ' using core Java.

- Developed and customized identity governance workflows in SailPoint IdentityIQ using Core Java to meet enterprise security and compliance requirements.

SOFTWARE ENGINEER TATA CONSULTANCY SERVICES

Jun 2019 – Nov 2021

-> **Ultimatix Purchase Order System | June 2019-September 2020**

Finance project on Oracle PL/SQL to enhance the performance of query to fetch the data in cursors.

- Developed screen for downloading reports.
- RCA and quick resolution of errors and validations through review of existing code.
- Code changes for improved functionalities.
- Optimized the overall structure.

-> **Ultimatix Global Procurement System | September 2020-October 2021**

Finance project on Java 7, Oracle PL/SQL, Spring Boot, Maven, Hibernate, JPQL, Postman in Agile Team.

- Modified REST API and Angular 8 code to add features to upgrade user experience.
- Designed, developed, troubleshot, debugged and implemented software code for software components of web application.
- Responsibly delivered several enhancements to production deployment while working within an AGILE Team.
